HOW IT WORKS.

- **ADVANCED PRICING**

Calculate pricing based on a range of methods including list price, cost plus, BOGOs, special pricing incentive fund, MAP, GSA and contexts.

- **RECURRING BILLING**

Create and manage contracts with individual pricing, and mix and match delivery methods. This feature also provides volume billing based on schedules and/or usage-based agreements or on established contract pricing.

- **REVENUE RECOGNITION**

Accrue and amortize revenue or expenses based on the sale or purchase of goods. For items that require revenue recognition after the sale, our Dynamics 365 trade management solution tracks and provides amortization journals to speed up the process. Likewise, ASC 606 rules are covered out of the box.

ADVANTAGES.

- **MANAGE**

Manage customer performance for one order or contractual commitments.

- **IDENTIFY**

Identify buying patterns to negotiate better deals.

- **ENHANCE**

Enhance automatic warehouse fulfillment and order processes to deliver goods on time.

- **RECOGNITION**

Flexible revenue recognition for complex transactions.

- **TRACK AND MANAGE**

Comprehensive system to track and manage service contracts and warranties.

WHY RED MAPLE.

- **WE'VE PROVIDED SOFTWARE TO MICROSOFT DYNAMICS' CUSTOMERS FOR 20+ YEARS.**

Red Maple is a leading provider of innovative solutions designed to enhance the functionality and usability of Microsoft Dynamics 365.
