# ADVANTAGES

## STREAMLINE YOUR PROCESSES. SAVE TIME AND MONEY.

Our software is designed to be easy to use, save time and maximize your processor relationship. With an interface that makes taking payments a snap, you have lots of choices when processing payments through Business Central.

- Use the processor or bank of your choice. Some providers require you to use their own processing, which is more expensive. Save money by shopping for the best rates.
- Pay less per transaction with Level II and Level III interchange and lower your processing costs.
- Utilize ACH and Electronic Payments as an alternative to card payments.
- Get paid faster with our customer self-service portal when you combine Red Maple Advanced Credit Cards for BC with our web-based, secure portal Clever Division™.
- Get going within minutes with our [user-friendly assisted set-up tool](#).
- Process payments or capture authorizations at shipment or invoice, reconcile and settle invoices, and automate accounts receivables.
- Accept payments on account in a Payment Journal.
- Reconcile bank statements with journals designed to make things easier.

# REDUCE YOUR RISK AND SECURE YOUR DATA

Our software is designed to protect your data and comply with the strictest standards in the industry. Security is at the forefront of our design and reducing your risk is the result.

- Reduce your PCI footprint with industry-leading security that is PCI 4.0 ready and uses profiles and tokens to safeguard customer and business data.
- Use Hosted Payment card entry to take Business Central out of PCI Scope.
- Allow Customers to enter their own card data through our secure portal.
- Use Card Verification Data (CVD) to further secure your transactions.
